

Teacher Guidance

1. Getting Ready

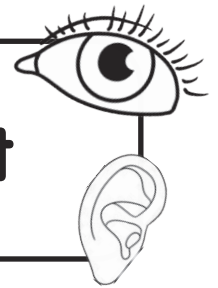

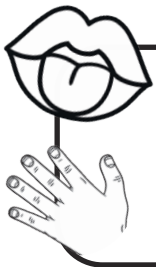

- Administer this assessment to students individually.
- Print out a student sheet and a teacher recording sheet for each student you will assess.

2. Giving the Assessment

- Read the questions aloud to students on the student sheet.
- Have students respond by pointing or marking the correct picture.

3. Tracking & Scoring

- Use the teacher recording sheet to track the student's performance.
- Circle the score for each question using the rubric provided at the top of the page.
- Use the notes/observation column to record mistakes, prompting used, and reteaching plans.
- Use bullet points for each part under the numbered section.

Five Senses: Student Sheet

Directions: Read each question to the student and have them point or mark the correct answer.

Which can you taste?

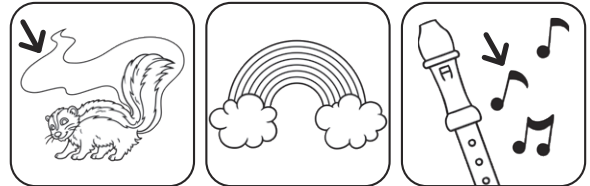

Which can you hear?

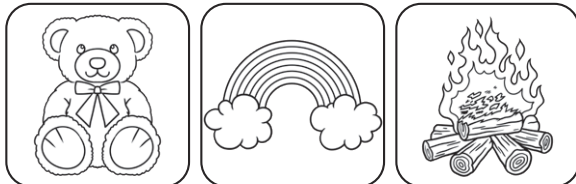

Which can you smell?

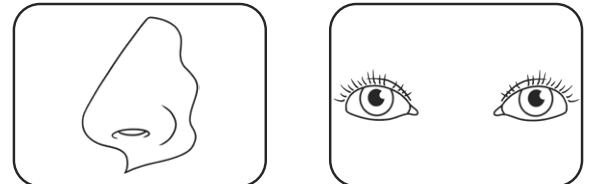

Which can you see?

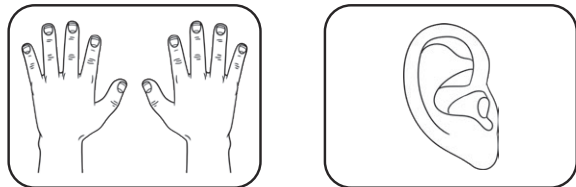

Which can you touch?

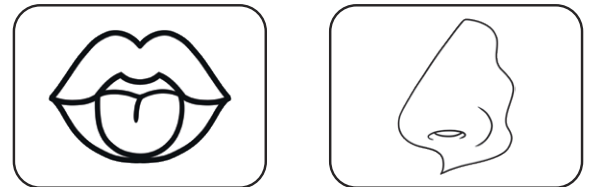

Which body part do you use to see?

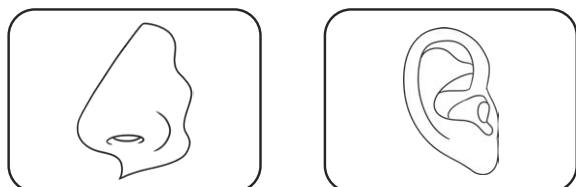

Which body part do you use to touch?

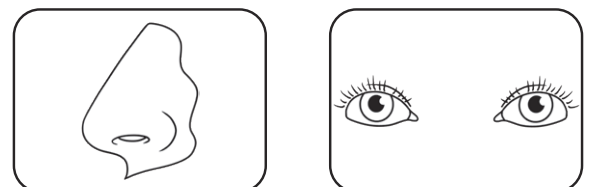

Which body part do you use to taste?

Which body part do you use to hear?

Which body part do you use to smell?

Five Senses:

Teacher Recording Sheet

M: Mastery The student can independently and correctly identify the object and the corresponding body part with little prompting.	A: Approaching The student can correctly identify the object and the corresponding body part with some teacher prompting.	NS: Needs Support The student is unable to correctly identify the object or body part with teacher prompting.
