

Plant Identification Sheet

To explore plants as microhabitats.

dandelion

buttercup

sycamore

daisy

silver birch

beech

grass

ash

bramble

holly

fern

oak

Plant not pictured? You could use a plant identification app and add it to a blank space in your tally chart.

Tally Chart

Note down how many minibeasts you spot on each plant.

Plant	Number of Minibeasts Seen
dandelion	
buttercup	
sycamore	
daisy	
silver birch	
beech	
grass	
ash	
bramble	
holly	
fern	
oak	

Outdoor Learning: This resource is provided for informational and educational purposes only. As this resource refers to outdoor learning, you must ensure that an adequate risk assessment is carried out prior to using this resource. You must contact a suitably qualified professional if you are unsure. Twinkl is not responsible for the health and safety of your group or environment. Outdoor areas provide great opportunities for playing and learning, but you should always check any environmental risks before taking part in outdoor activities, and only proceed if it is safe to do so. For example, even the shallowest amount of water can be extremely dangerous. You should ensure that learners wash their hands after being outside, and are respectful of nature, taking care of animals and plants. Please be aware that learners should be supervised at all times, particularly young or vulnerable learners.

Touching or Working with Plants: As this resource refers to plants, you must ensure that an adequate risk assessment is carried out prior to using this resource. It is your responsibility to ensure you are aware of the allergies and health conditions of anyone touching or working with plants. Twinkl is not responsible for the health and safety of your group or environment. It is your responsibility to ensure the resource and the information/activity it contains are safe and appropriate to use in your situation.
