

Reasoning Card: Biodiversity – Minibeasts

3

Some children wanted to know what plants were being used as minibeast microhabitats.

They looked around a garden and these were their results.

Plant	Number of Minibeasts Seen
fern 	
daisy 	
grass 	
dandelion

What changes could be made to the garden in order to see more minibeasts?

Reasoning Card 3

What is this type of table called?

a tally chart

What plants did the children see being used as minibeast microhabitats?

fern, grass and dandelion

What changes could be made to the garden in order to see more minibeasts?

Children may suggest planting different trees or other plants to increase the variety of minibeasts. They may suggest adding bug hotels or other homes for minibeasts.
