

3-4 Arts, Crafts and Music

Activity - Foamy Colours

This activity will allow your child to be creative, enjoy some messy play and explore colour mixing. You can introduce your child to colour names if they are not already familiar with them, to help them learn new vocabulary.

What 'I Can' milestones does this support?

I can explore colour and colour mixing.

You will need:

- shaving foam
- three plastic cups
- food colouring - red, blue and yellow
- paper

Optional:

- ziplock bag

How to Play

1. Put some shaving foam into each of the plastic cups.
2. Add a few drops of food colouring to each cup so that there is one of each colour - red, blue and yellow.
3. Let your child explore mixing the colours together to create new colours. They can use them to create a picture on their paper. Encourage them to use language to describe the colours that they have made. They can name the colours and say which ones they like the best.

More Ways to Play

- If you would like to limit the mess, you could put each of the different coloured foams into a ziplock bag and secure it and then let your child mix the colours within the bag.
- You can also try a similar activity by mixing modelling dough.
- If you do not have shaving foam, you could just mix water and food colouring and then let your child use a pipette to drop the mixture onto a paper towel and watch the colours mix.

Disclaimer: Welcome to Twinkl Tots. We hope you find the information on our course and resources useful. This course is provided for informational and educational purposes only. As all children are different and develop at their own pace, your child might show development at different times or in different ways. Our aim is simply to give you general guidance and the information may not apply to your specific situation. If you have any concerns about your child's development, please speak to your health visitor or GP.

Some ingredients and/or materials used might cause allergic reactions or health problems. You should ensure that you are fully aware of the allergies and health conditions of those taking part. If you have any concerns about your own or somebody else's health or wellbeing, always speak to a qualified health professional. Activities listed within the resource should always be supervised by an appropriate adult. Children should be supervised when using sharp items such as scissors or other tools. Please make sure you are aware that children may put craft items into their mouths, and that they should wash their hands afterwards. By using this resource, you acknowledge that it is the responsibility of supervising adults to ensure the safety of children in their care and that we will accept no liability as a result of the activity.
