What is this resource and how do I use it?

Shapes will play an important part of your child's maths education, and throughout their early years children will cover 2D and 3D shapes. These worksheets are full of fun, hands-on activities that will help you introduce four basic shapes to your child. Once they have mastered these, you can move onto more complex shapes.

What is the focus of this resource?

Shape Recognition

Fine Motor Skills

Early Maths

Further Ideas and Suggestions

For more ways to practise shape recognition, have a look through our **Shapes section**. You'll find **games and puzzles** as well as **visual aids** and **shape activity sheets**.

Which Shape Is Which?

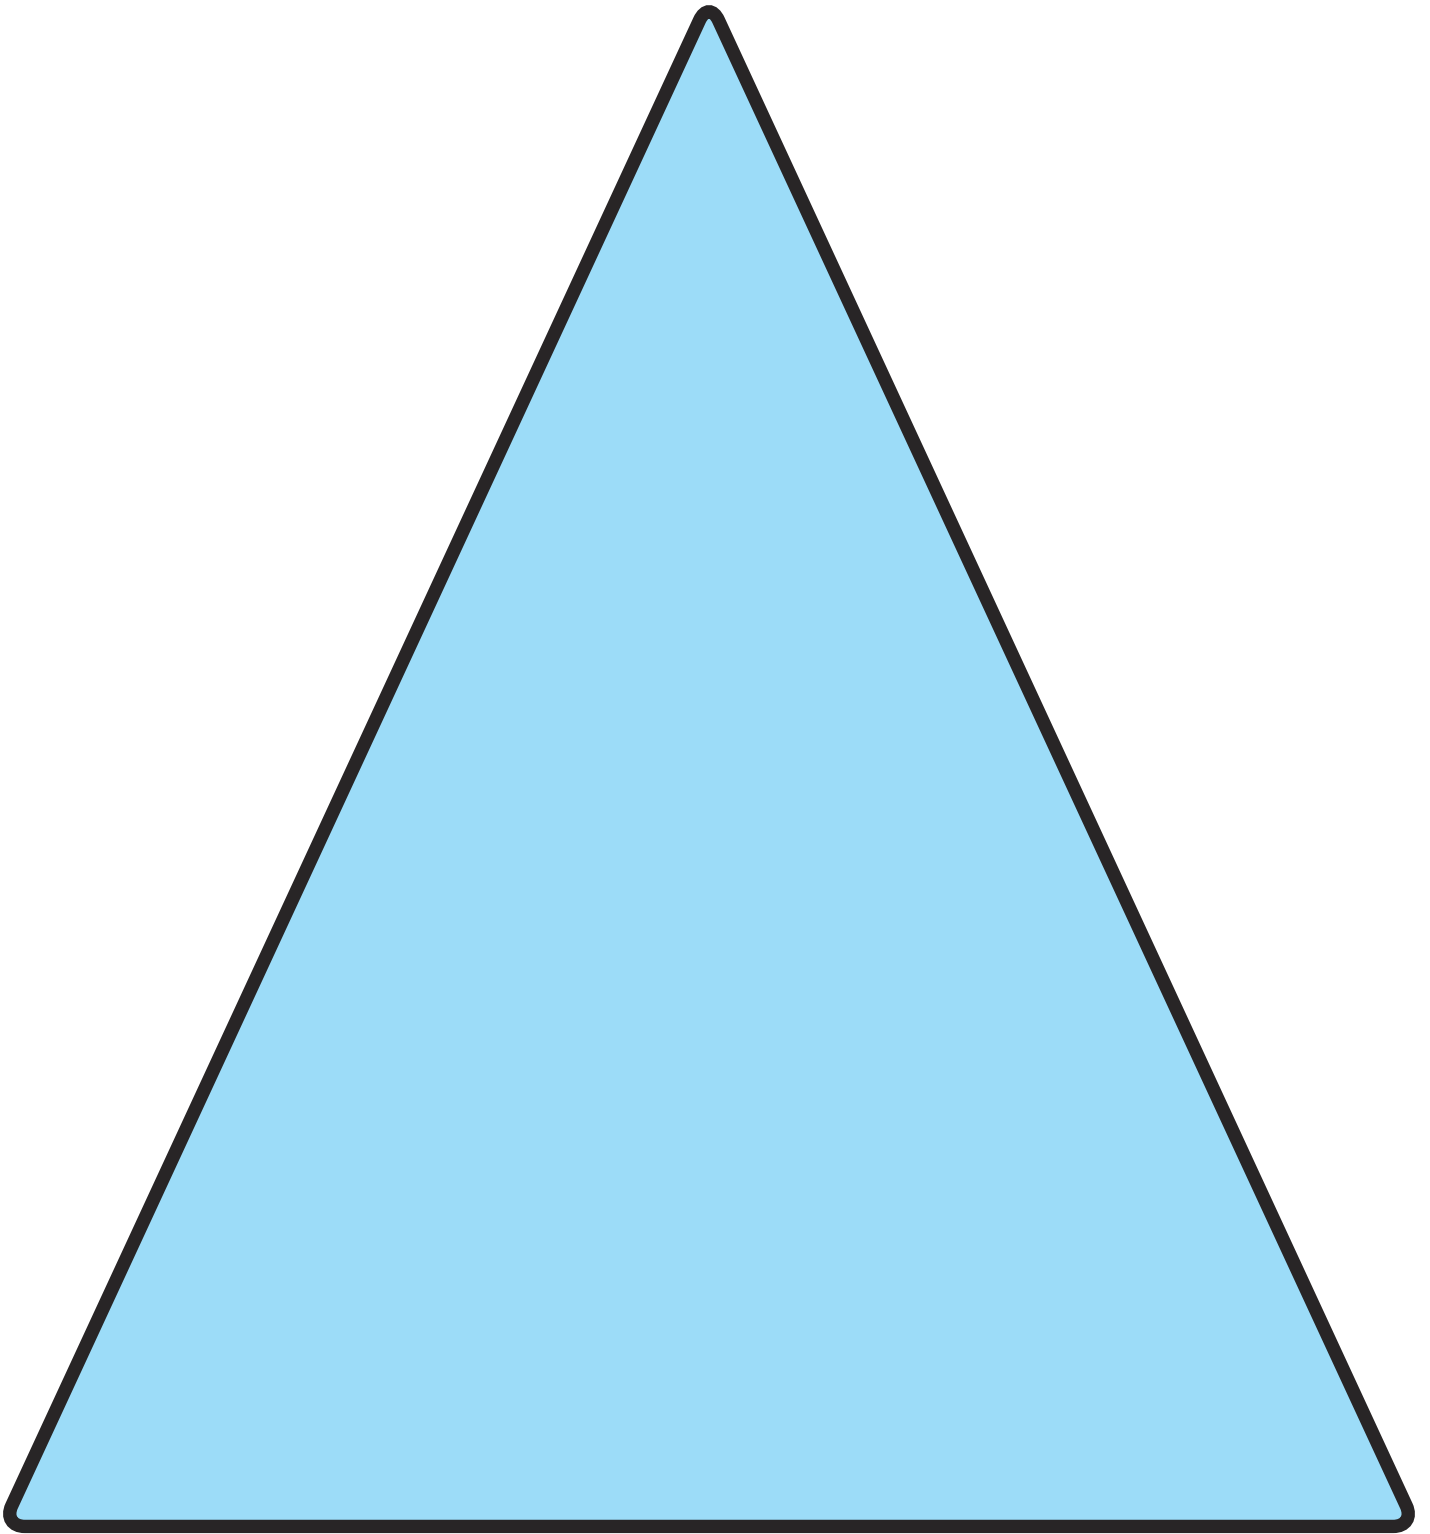

Print out the following shape sheets, then cut out each of the smaller shapes. Can you place the correct small shapes on the matching larger shape?

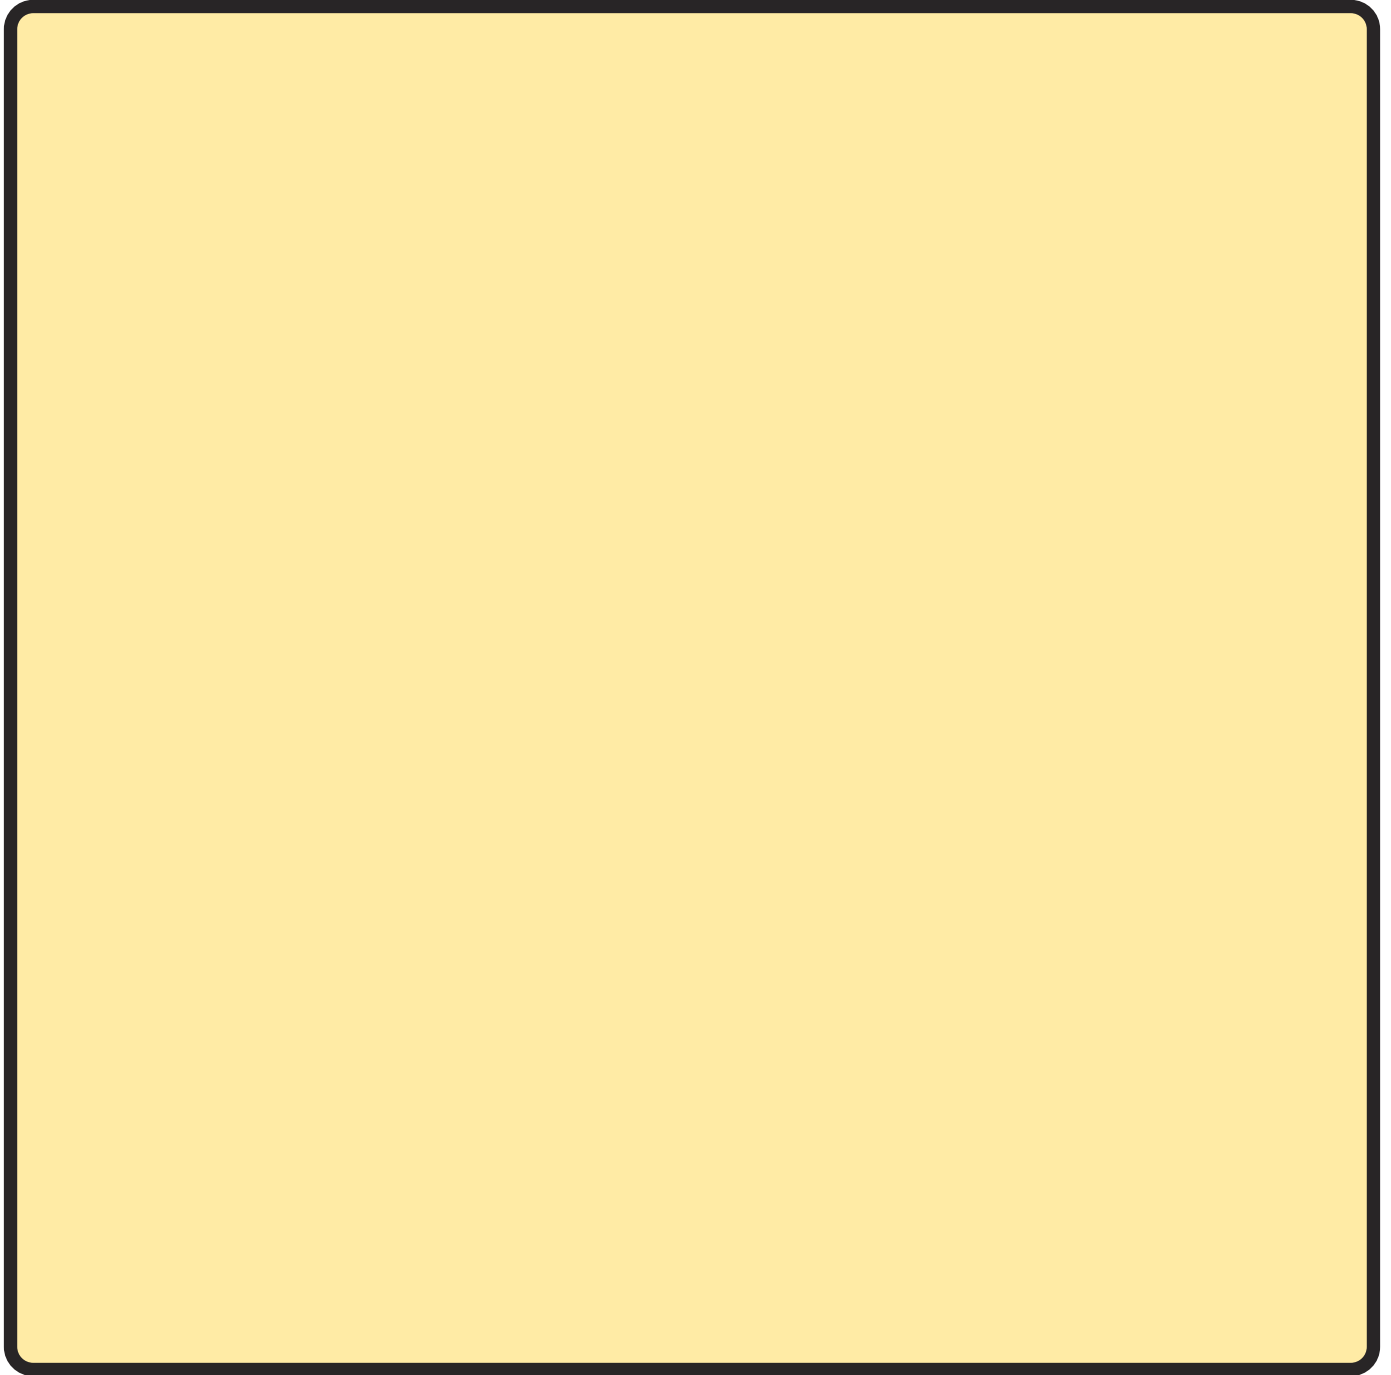

Rectangle

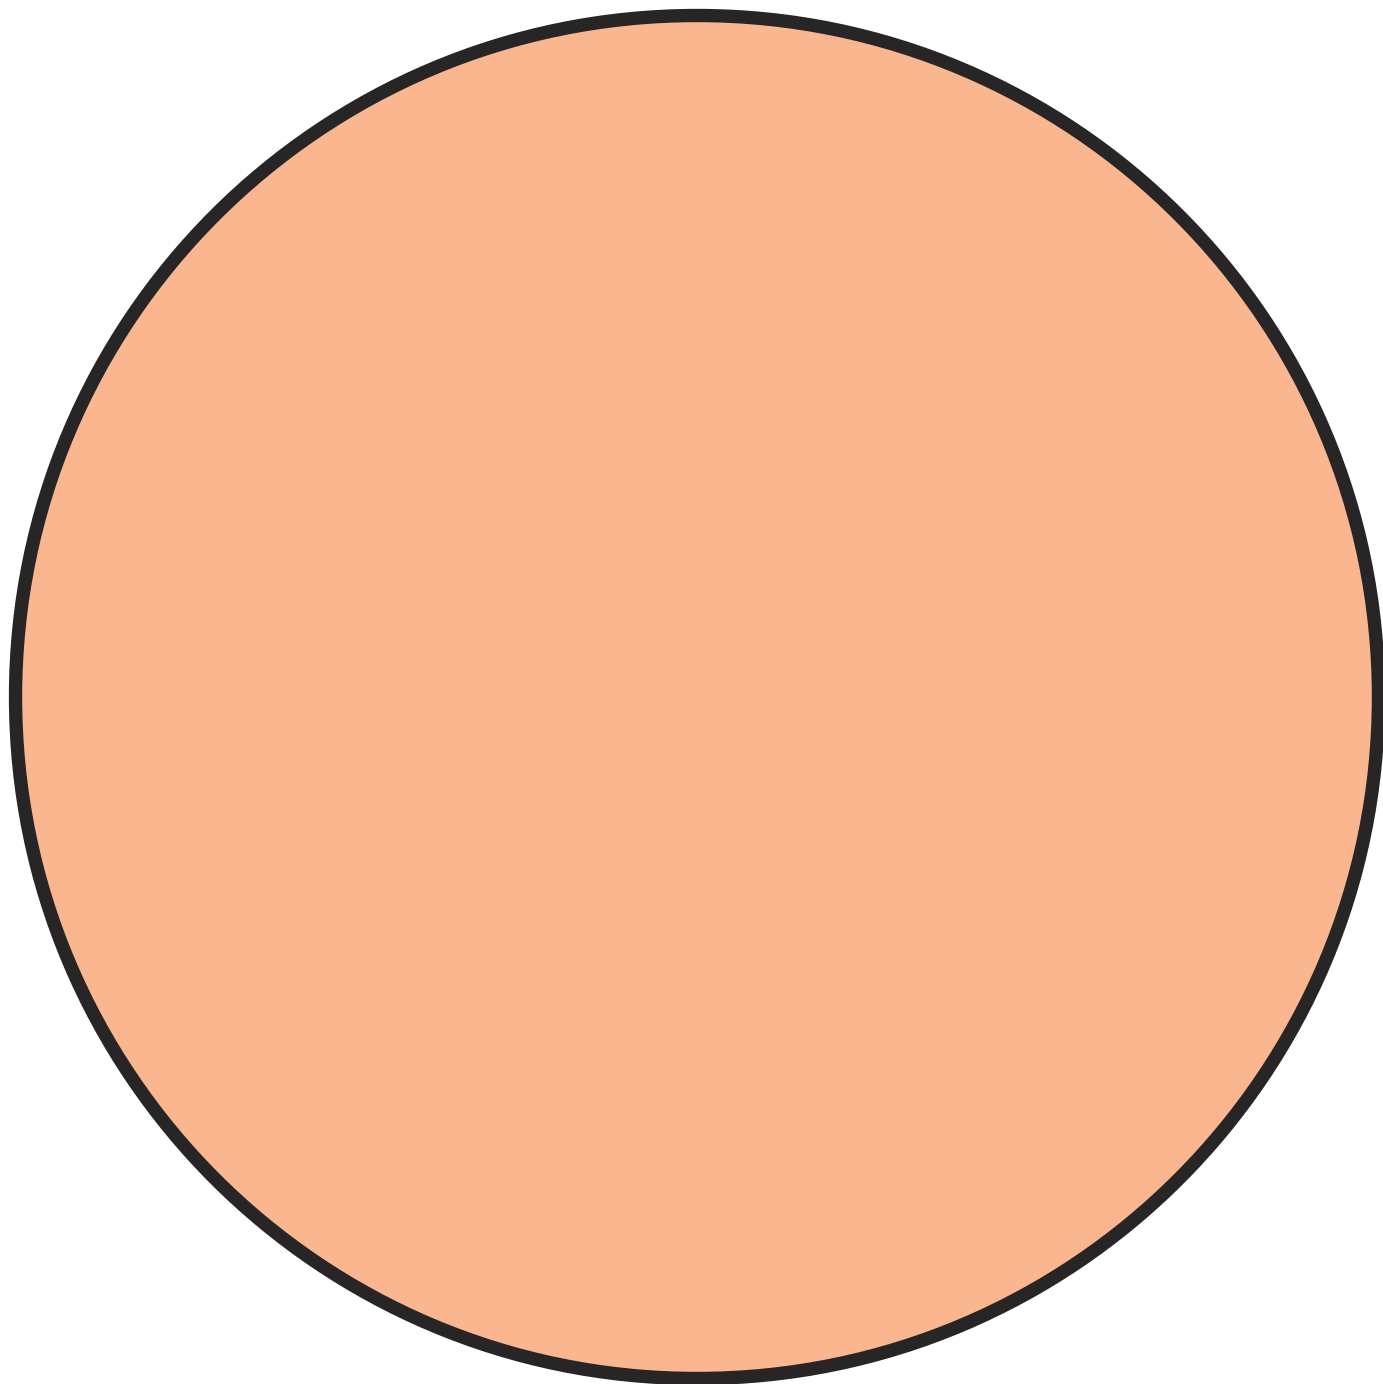

Triangle

Square

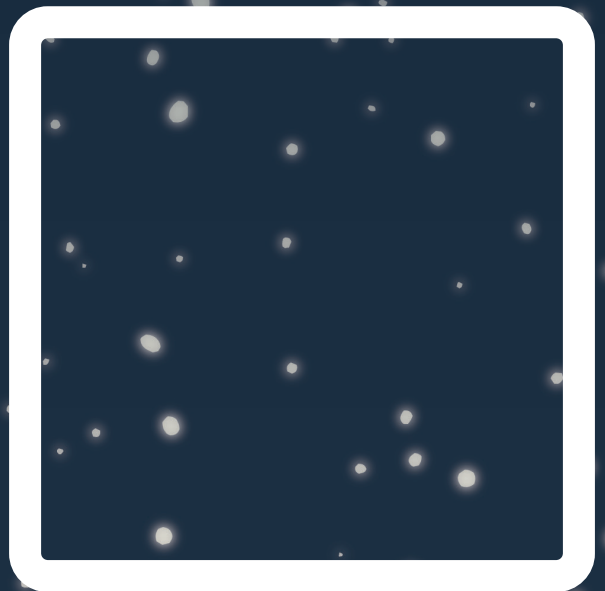

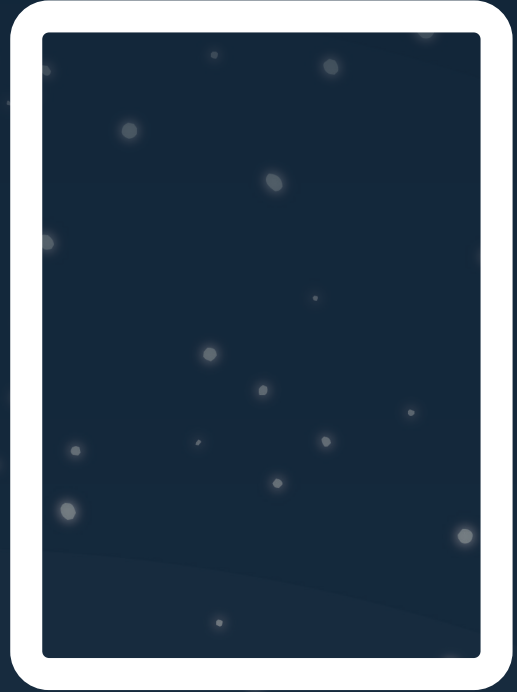

Circle

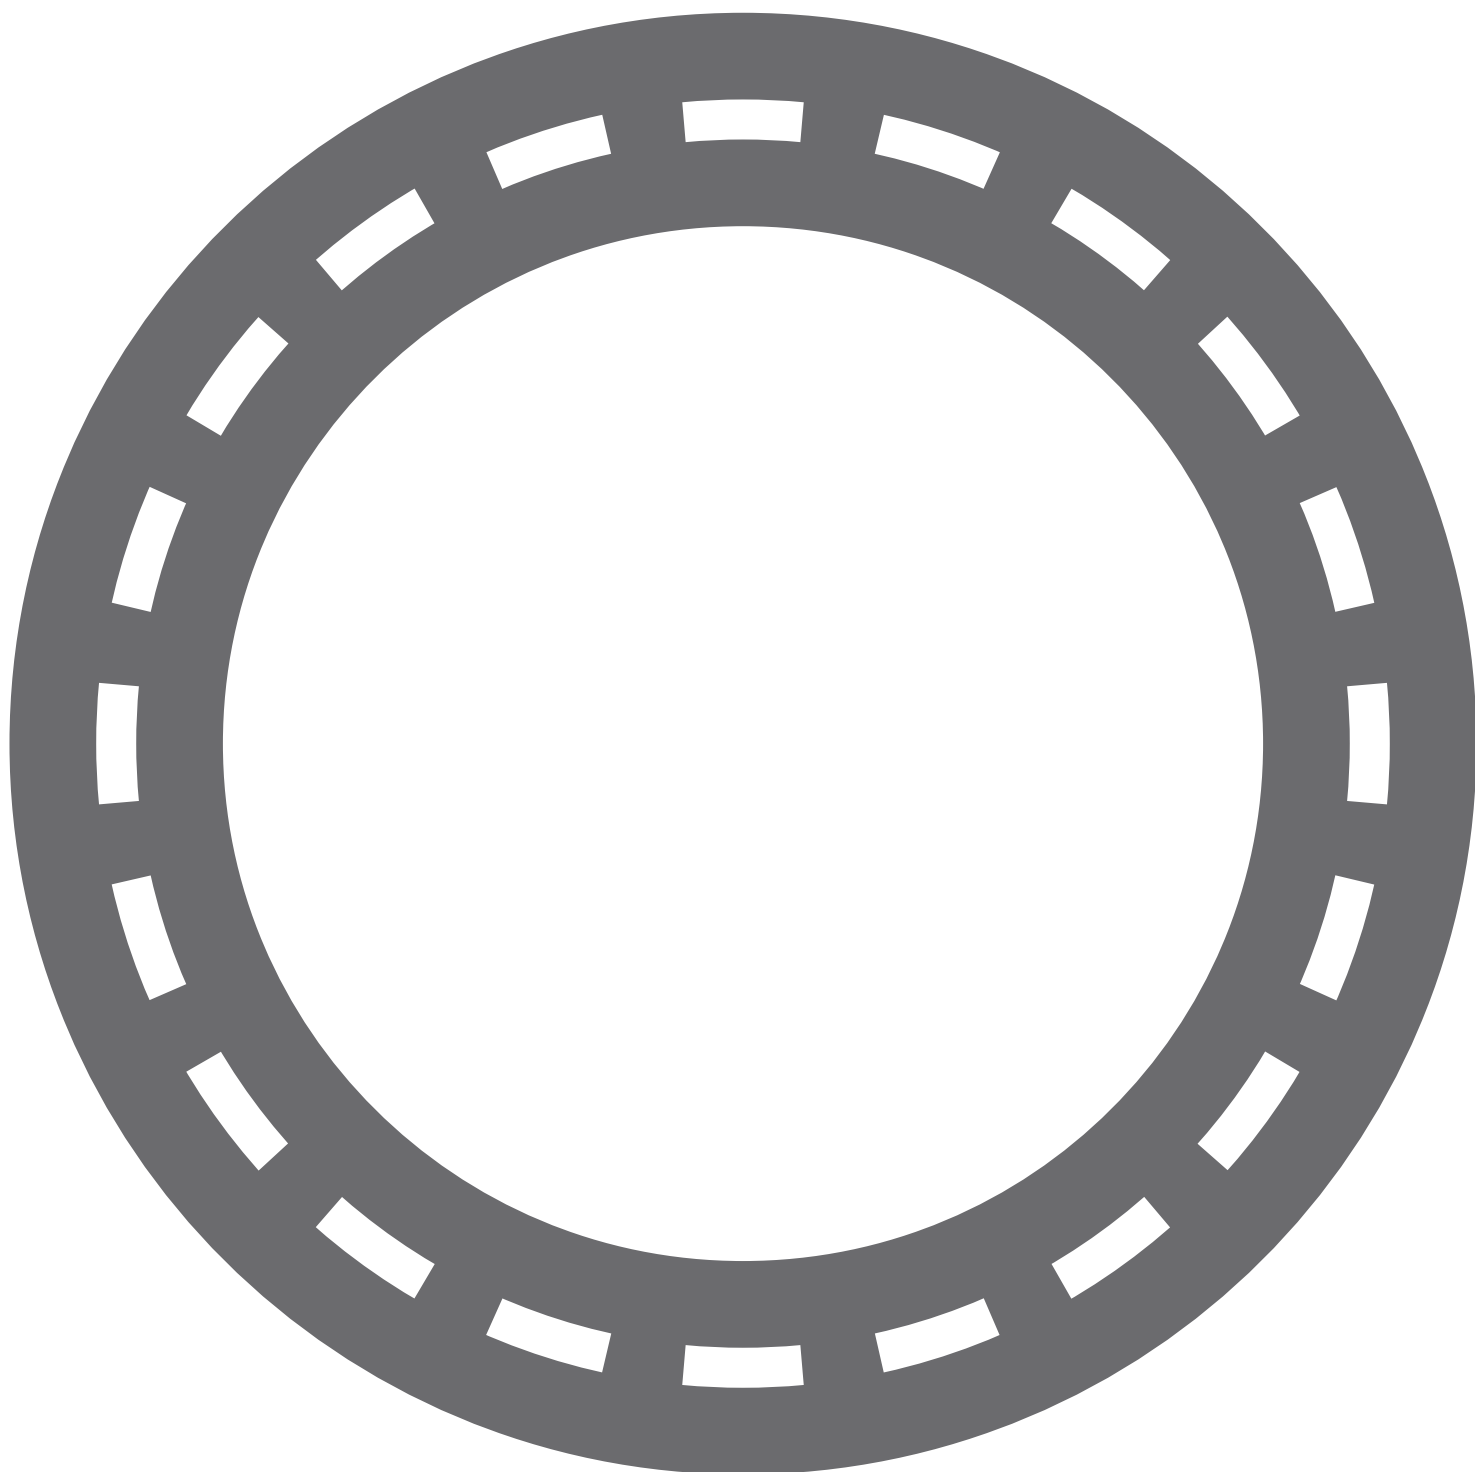

Shining Shapes

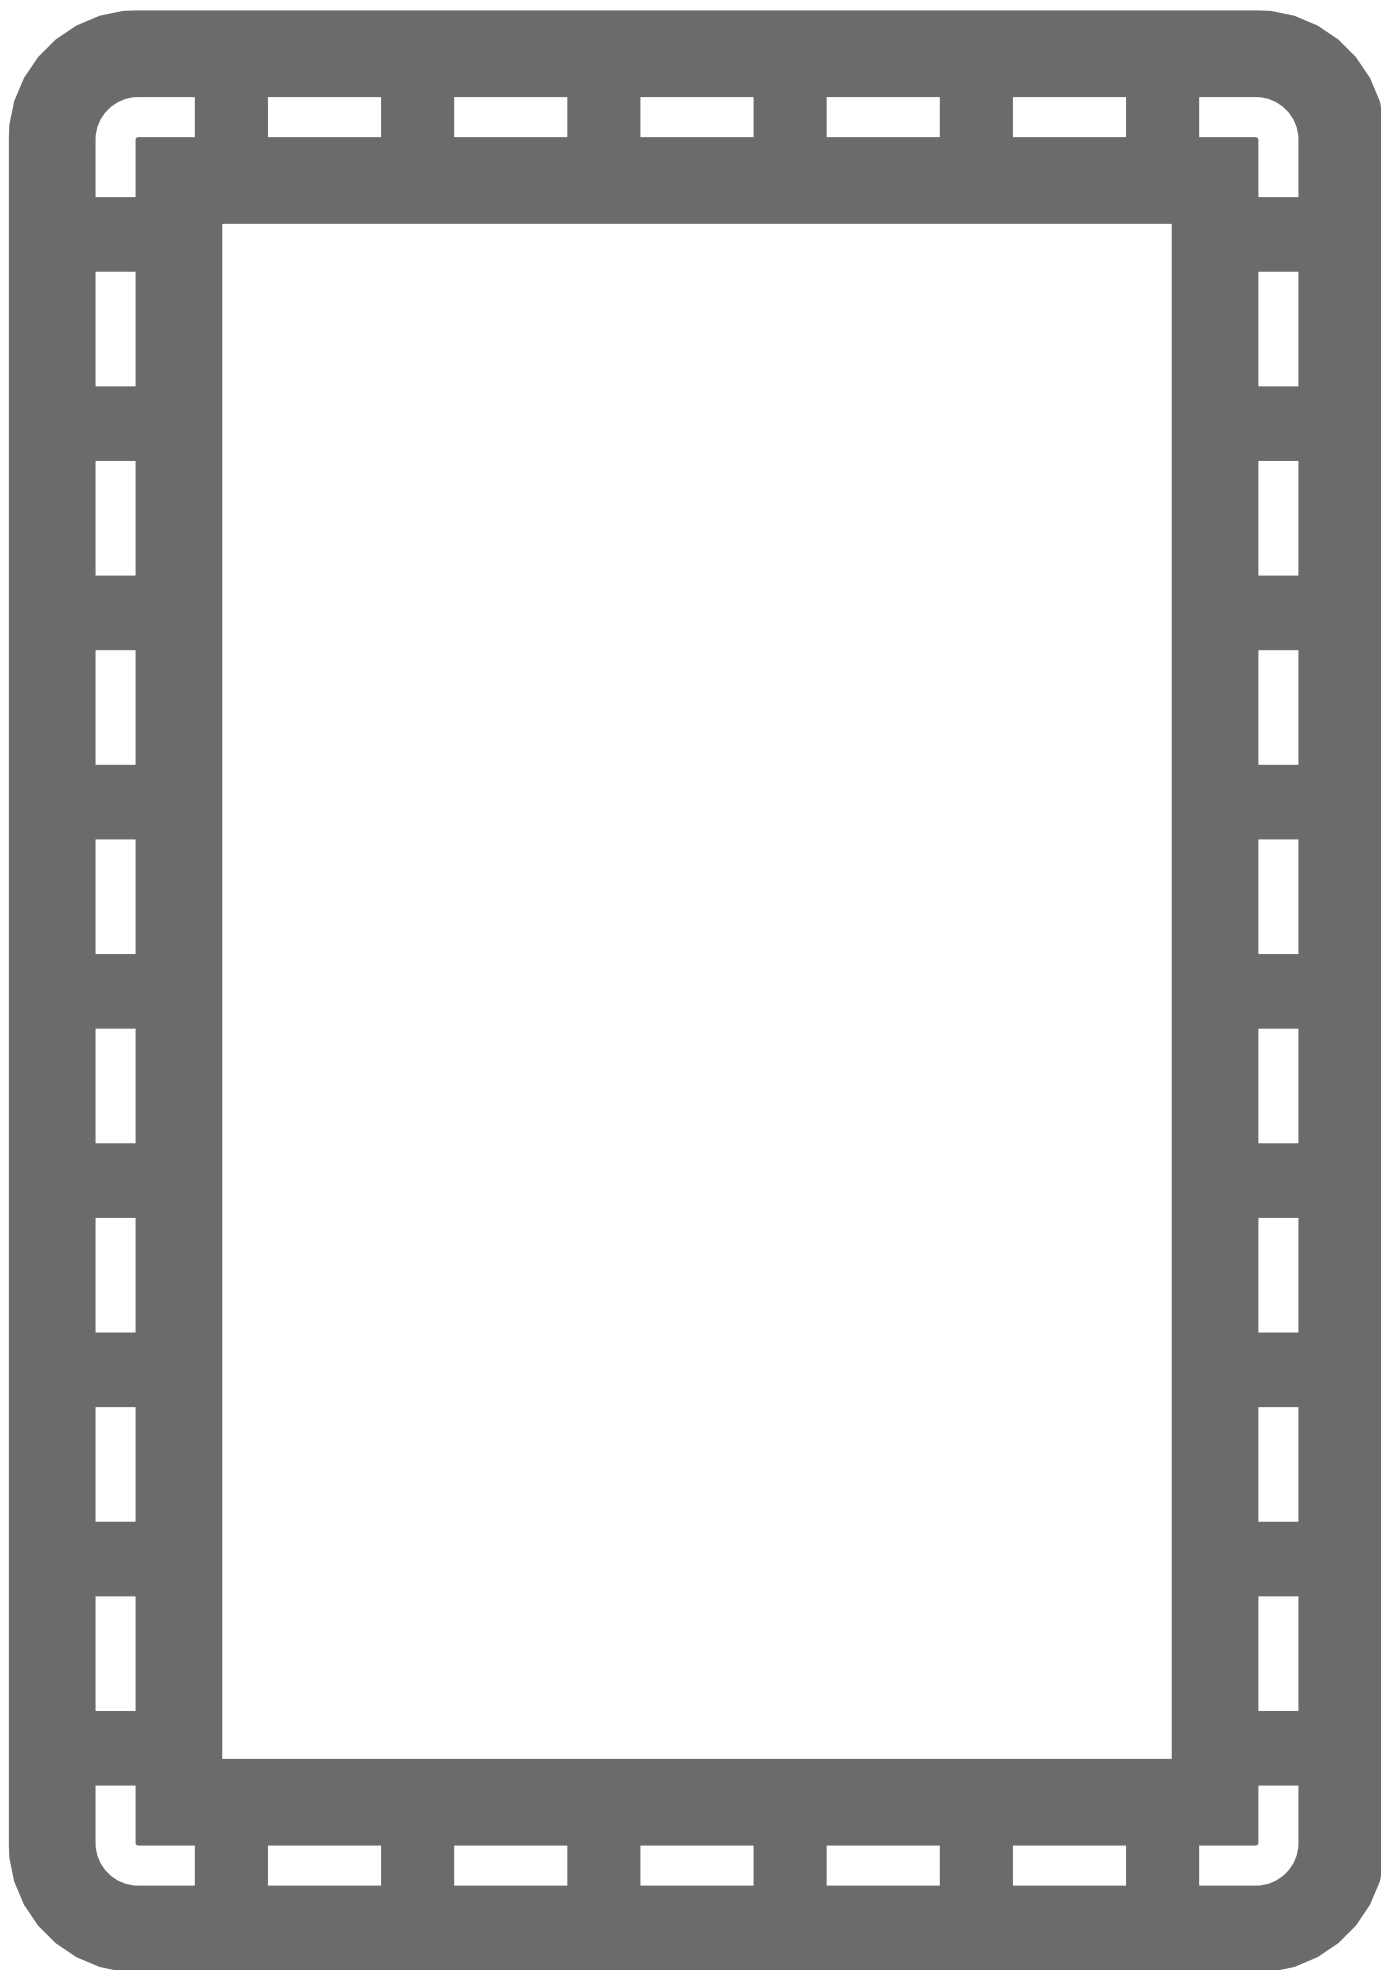

At night time, the stars make lots of shapes in the sky! Can you find and trace the shapes in this sky?

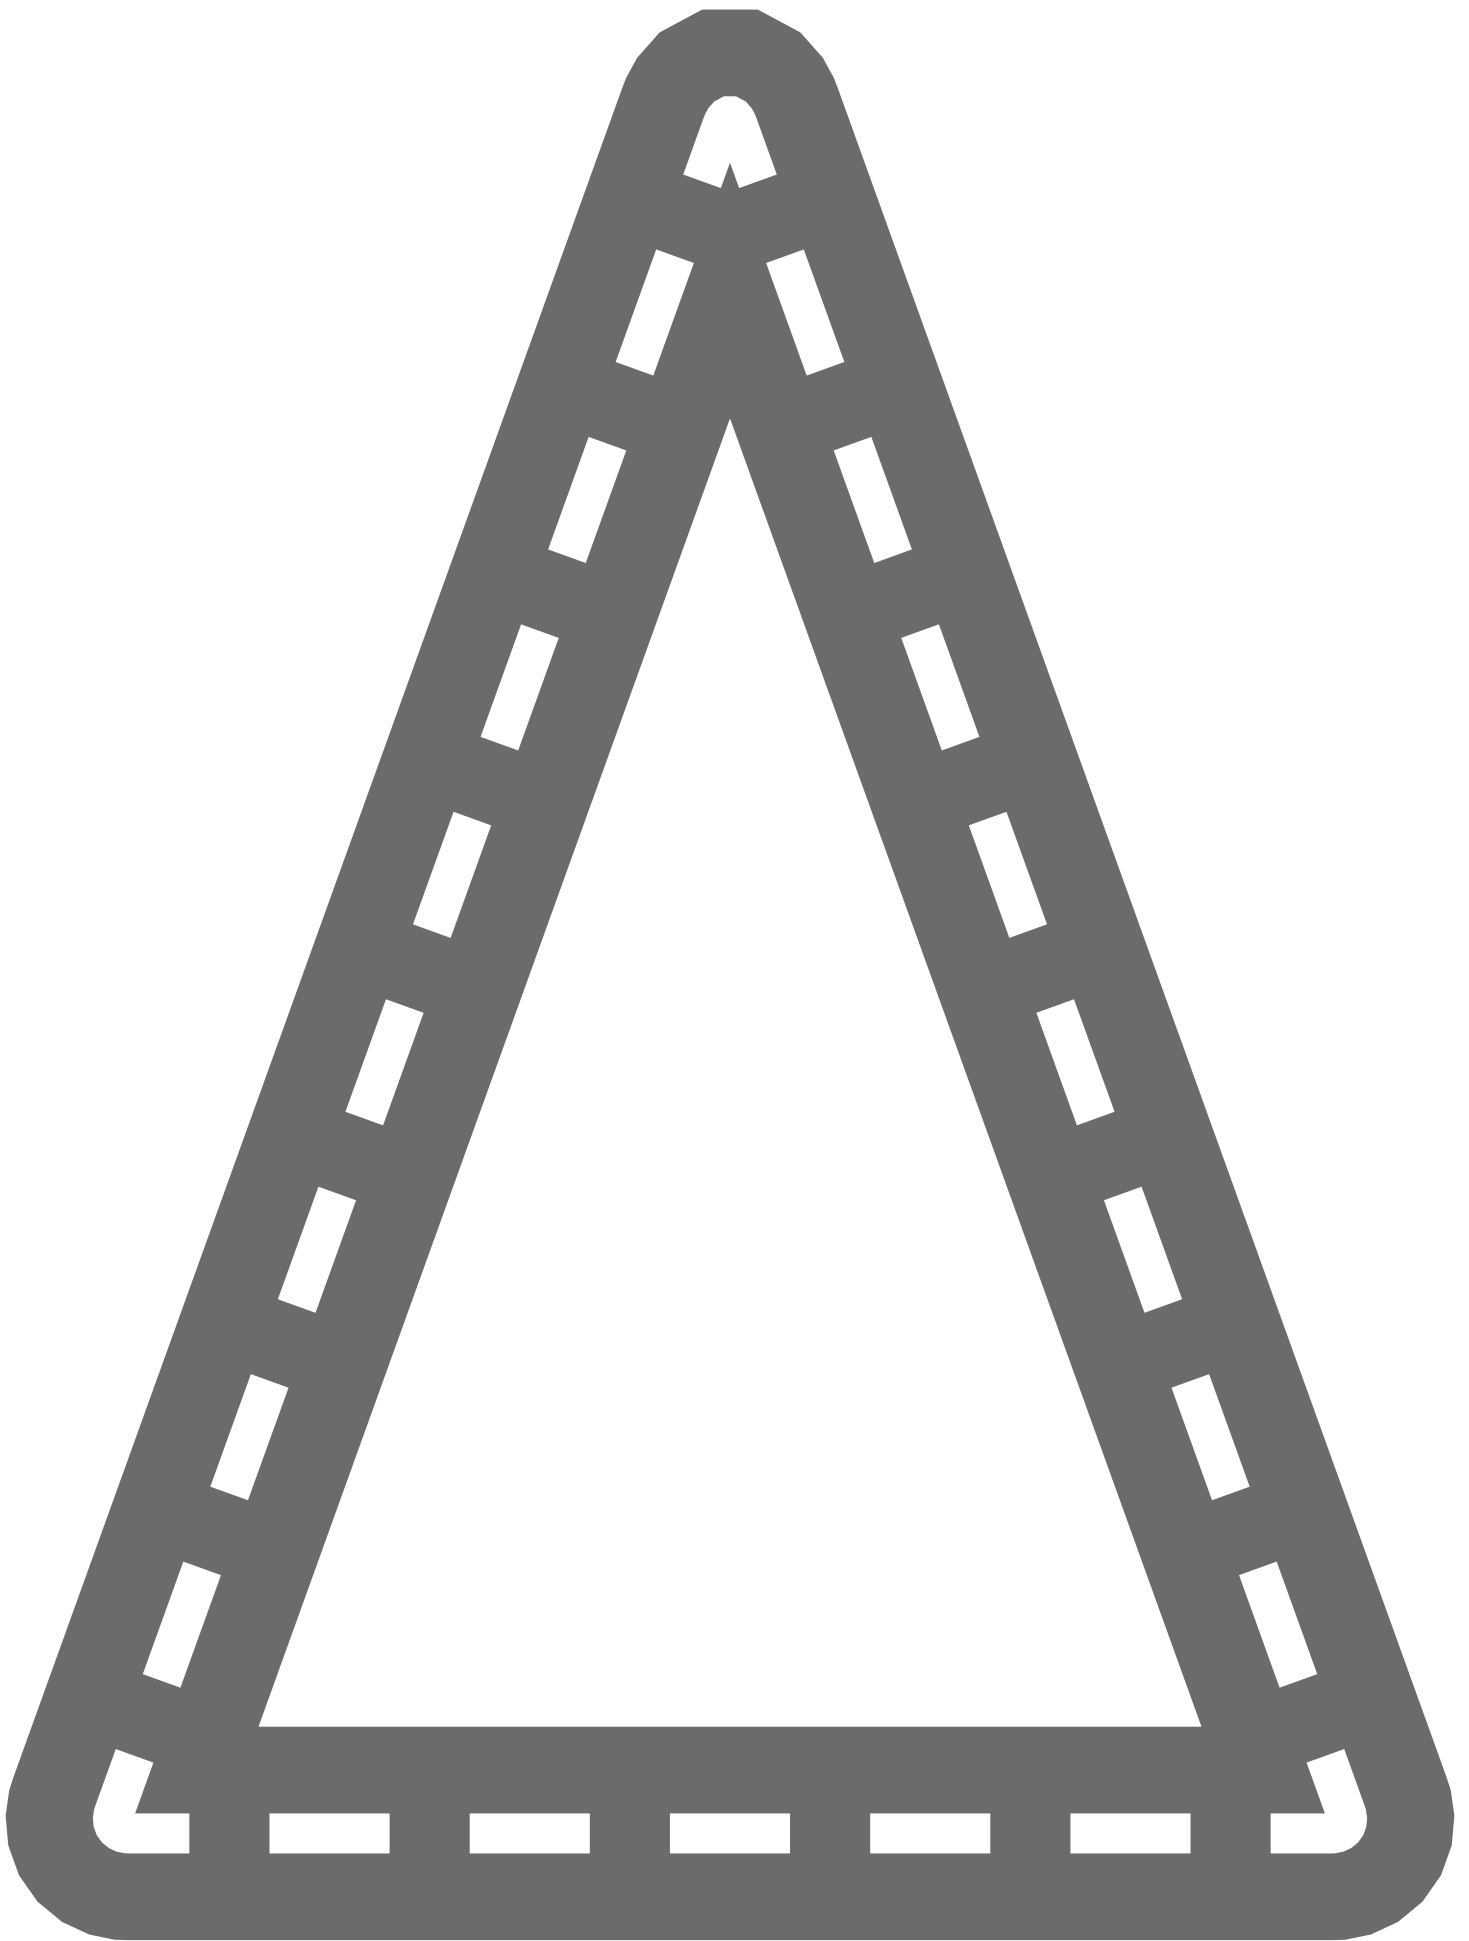

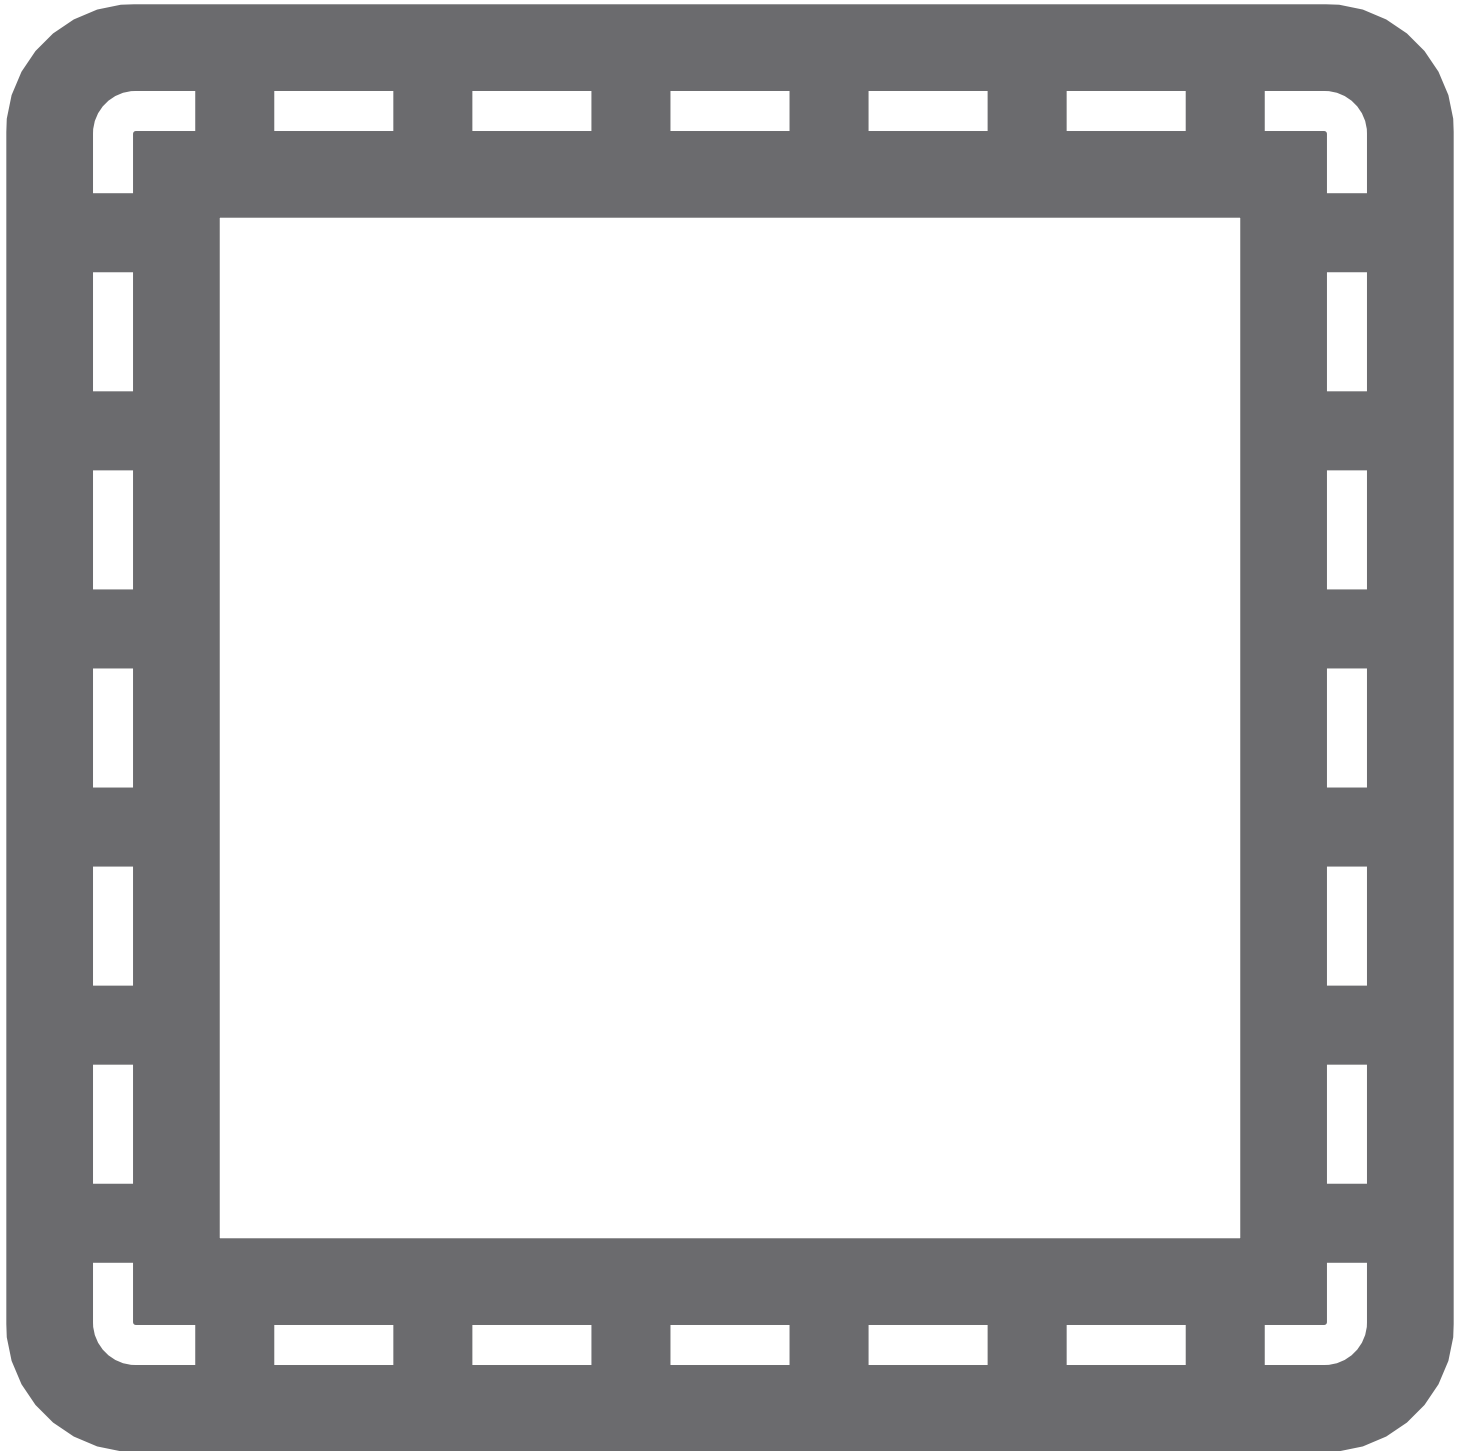

Drive-a-Shape

Grab a toy car and drive it around each shape. Can you name the shape as you drive the car?

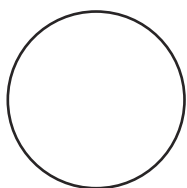

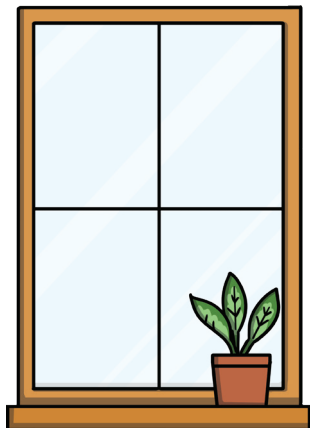

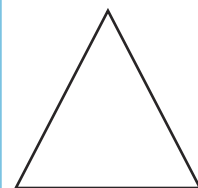

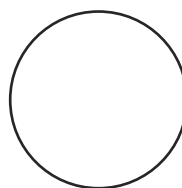

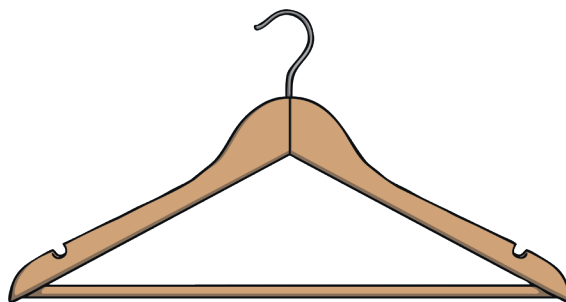

I Spy a Shape

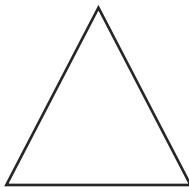

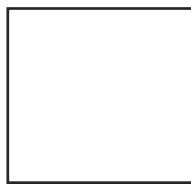

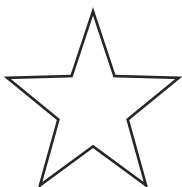

Have a look at these items you probably have around the house. Can you work out what shape they are, then colour the correct one in? See if you can spy some other things around your house that are in this shape, too.

Shape Quiz!

Ask an adult or older friend to read these questions - how many can you get right?

I am made up of one line that just goes around and around! The sun is the same shape as me.

I have three sides, just like a slice of pizza.

I have four sides that are all the same length, just like a sandwich.

I have four sides but two of them are longer than the other two. Your television is probably the same shape as me.
