

Design a Coding Robot

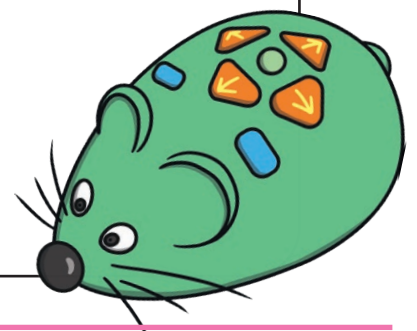

The mouse and bee would like a friend to join them in their coding adventures!

Draw your own design for a coding robot to be their new friend.

What buttons will you include?

What animal could you make the robot look like?

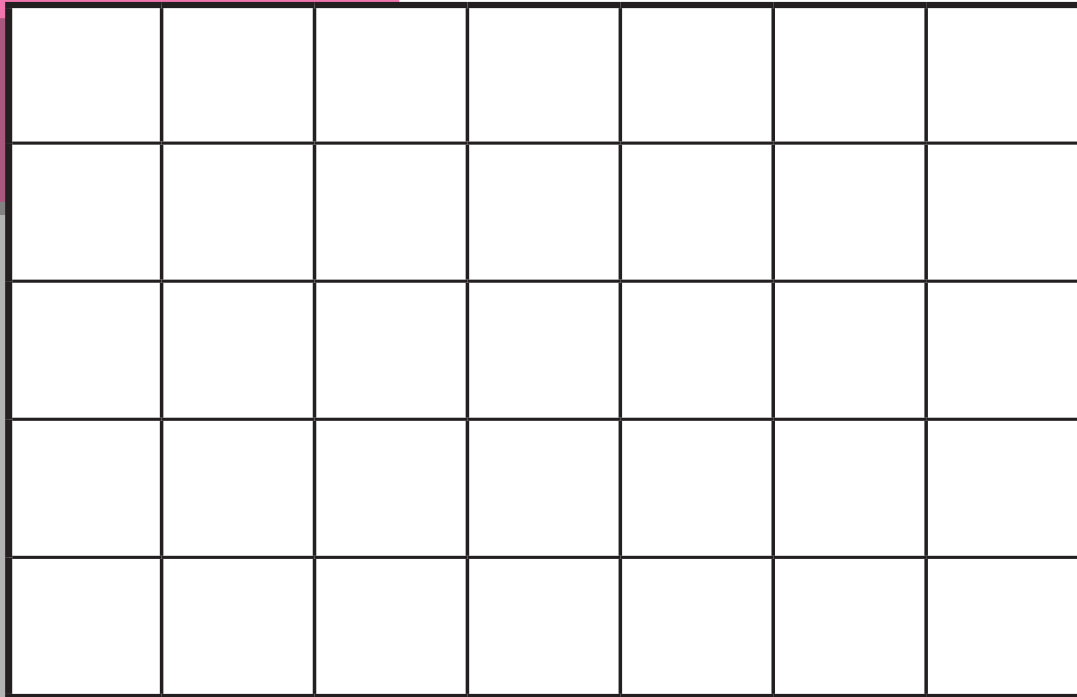

What colours and patterns could you use?

Design a Coding Robot

Draw your coding robot in a square on the grid below.

Draw a path on the grid below for your coding robot to follow. Colour in the squares to show the path the robot will take.

Draw the buttons you have used on your design and use them in your instructions.

My buttons

Write the instructions you would need to enter into your coding robot to follow the path you have drawn on the grid.
